

POLITICAL WILL FOR PEACE

Political Will for Peace (PWP) is a global citizens' campaign creating the political will to remove Russia from the United Nations Security Council for the crime of war against the nation of Ukraine, and war crimes against the people of Ukraine.

A Unified Declaration and Demand for Action.

To our fellow citizens, our national leaders, and the United Nations:

“I demand that my national Head of State, my national political representatives, and my country’s Ambassador to the United Nations take immediate action to remove Russia from the United Nations Security Council for the crime of war against the nation of Ukraine, and war crimes against the people of Ukraine.”

The war in Ukraine has demonstrated the impotence of the United Nations if a permanent member of the Security Council with full veto power becomes a rogue state without consequence. Common sense demands Russia must be evicted from the UN Security Council. Russia has flagrantly violated the UN Charter and refused to comply with the General Assembly’s resolutions. It has committed crimes of aggression against a sovereign state and numerous crimes against humanity in the occupied parts of Ukraine.

The goal of our campaign is creating the political will required to remove Russia from the UN Security Council. We will do this by - 1. Creating a citizen’s petition for our Unified Declaration in all 193 UN member countries. 2. Directly writing to, and meeting with, our national government representatives in parliaments, congresses, and national assemblies. 3. Writing and publishing opinions, editorials, letters to editors, podcasts, and position papers in all forms of public media to advocate for our Unified Declaration. 4. Organize community leaders, thought leaders, artists, and celebrities to speak out and take a stand. 5. Create the political will for a large majority of world leaders to direct their UN Ambassadors to vote to remove Russia from the UN Security Council.

Using this strategy and global communications technology we will step-by-step achieve our goal. We work in collaboration with like-minded groups, organizations, and opinion leaders. The campaign is seeking volunteers at all levels for its development.

The great social achievements of recent decades came about because people organized and made demands, thus making it good politics for governments to respond. It is the political will of citizens that makes and sustains the political will of governments.
